

FCC,  
This is just to let you know that I understand why the NAB is upset with satellite radio. However, instead of petitioning you, they should start coming up with comparable broadcasts to compete, not just sit there and call foul.

I love the variety that XM provides, including the traffic and weather. I pay for the satellite radio for its excellent sound quality, no commercials, and that they are not controled by the mafia like union of the NAB.

I strongly urge you to reject the NAB's petition 04-160.

Thank You  
Jesse Baker
